

BUILDING SITE LOCATION SKETCH

Please make a sketch of the proposed project in the space provided below. The sketch should include any buildings, proposed or existing, the proposed location of the well and septic system, any driveways, and County roads. Also include the front, side, and back lot dimension, as well as the total number of acres involved. If the land has not been surveyed please provide reasonable estimates of the dimensions. Any easements of record must also be shown on the sketch, and denote where NORTH is on the sketch

.....

.....

NOTE: The ultimate placement of any new well or sewage disposal system will be determined by the Benton County Department of Health, and the placement of any new driveway will be determined by the Benton County Secondary Road Foreman (319) 472-2211.
