The Board started discussion for FY 26 Budgets. Auditor Rippel explained how the big part of budget changes relies on health Insurance rates and what the Board will decide to do along with wages. This led to discussion on reserves in the fund balances and how it is important to not utilize that if we can help it. The 3% cap on increases is still a concern this year as it was last year. If the county has valuation growth, and estimating same levies as last year and that amount is above 3% we are forced to lower the levy as we were forced to do last year. Supervisor Tippett would like to see the Board take a different approach this year. With his experiences as both the sheriff and police chief in the past. He would like to give department heads an amount to work with but not allowing cuts to wages, personnel or benefits. Auditor Rippel would get some documentation to the Board, so they can see the history over the past few years. The upcoming meetings will have a lot of discussion/action items that will need to be had before we can really start crunching numbers.

Tippett moved/Volz seconded: To Adjourn at 11:47 a.m. All members voting aye. Motion carried.

Tippett, Seeman and Volz all voting aye. Motion carried.

Tracey Achenbach with the East Central Iowa Housing Trust Fund presented the FY26 budget request. She explained how the trust fund started in the late 1990s. Since the program started, they have spent over \$1.2 million. The request of \$5,986 is an increase from \$5,387 last year. The supervisors agreed that the county gets a good return on this investment. \$183,080.00 was paid out in Benton County alone last year from the Eastern Iowa Housing Trust Fund.

Ryan Bervin with Assured Partners met with the board regarding employee benefits and the various renewal options through ISAC (Iowa State Association of Counties). He said 28 counties participate in this partial self-funded health plan. The overall pool had a very good year. He explained the wellness, dental, life, vision and other benefits. He said the county's reserves are in a good spot. Bervin also touched on how an HRA works for sick leave conversion. It would be a great benefit to employees, but costly for the County. At this time, there was nothing set up for this. He can prepare more information about this and other things the board inquired on such as long-term disability.

Joe Kaiser, representing Stoney Arch Estates Association. He would like to see the easement removed between lots 10 and 11. He had concern about heavy farm equipment on that easement. Barb Fetzer of the land use department explained to Kaiser that the Supervisors can't do that, there would need to be a re-plat of lots 10 and 11 and that the City of Vinton would have the right to review. Kaiser thanked the Board for their time and will pursue further action.

Mark Erickson, Transportation Director, asked for clarification on the Transportation handbook regarding the Christmas Eve Holiday. His handbook still reflected a half day and his department worked a half day. Erickson was going to allow those employees 4 hours of comp time to reflect this and the Board agreed it was acceptable. This led to conversation to simplify the handbook(s) so that it is all one version with noting specific things to this department such as the Transportation's Drug and Alcohol Policy.

Tippett moved/Volz seconded: To authorize Mark Erickson to order both of the transportation bus(s) and commit funds accordingly over the FY 26 and FY 27 budgets. Tippett, Seeman and Volz voting aye. Motion carried.

Legislation in July changed and dissolved the compensation board, explained Auditor Hayley Rippel explained how legislation in July changed and dissolved the Compensation Boards. Reinstating the compensation board is up to the counties. In the past the Compensation Board sets the percentage recommendation to the Board of Supervisors. The Board then could not go above, they could cut, but would have to cut evenly across all officials. If they don't reinstate the Board, then the Supervisors would have to act as such, and do the work to show and justify where they got the amounts.

Assistant County Attorney Derek Marsh said Lough wanted the board to know he didn't think the county needs a compensation board, adding, "He feels like

we're perfectly capable to advocate for ourselves and our own people."

Supervisor Volz asked some questions how this affects all employees and Rippel explained the comp board is only acting for elected officials, which then trickles down to their respective deputy positions in their office and those wages can not go above 85% of their elected official's salary.

Supervisor Tippett observed the compensation board doesn't streamline the process, but it gives elected officials time to allow for a representative to advocate for the elected officials. Volz commented how nobody likes to see themselves asking for their own raise. Supervisor Seeman is on the fence, and said it would be another meeting to attend. Supervisor Tippett spoke on behalf of a previous meeting held by the elected officials and all but one were in favor of having it re-instated.

BENTON COUNTY BOARD OF SUPERVISORS RECORD “T-T”

Tippett moved/Volz seconded: To approve Resolution #25-3, Re-Establishing a County Compensation Board. Tippett, Seeman and Volz voting aye. Motion carried.

Tippett moved/Volz seconded: To approve 75 hours of vacation to be carried over for Myron Parizek to be used by May 31, 2025. Tippett, Seeman and Volz voting aye. Motion carried.

Parizek also inquired when the new version of the handbook would go into effect as he has employees with anniversaries that fall this week, and that would affect their vacation days.

Further discussion regarding the handbook but mainly discussing the sick leave conversion portion in Section 4.3. The Board would like to remove this section, and really get educated more on this and the cost it would be to the budget. Supervisor Tippett pointed out that the FY25 Budget had only began a short time when this was presented and approved by the previous Board. This is something that should be addressed with negotiating union contracts and setting budgets. Now would be the proper time for this to be discussed for proper future budget planning. Further discussion that this needs to be looked at and parameters set. We can't discriminate as we were explained earlier. Employees were told the new changes would go into effect January 1, minus the sick leave conversion in section 4.3.

Ben Turnis, County IT Director shared the need to make some upgrades and changes to the Sheriff's office IT structure. The gentlemen who was currently providing their IT Support has passed away unexpectedly. Turnis would like to get some assistance through the ICIT Tech Team. They would come in and do an assessment on the Sheriff's infrastructure, find problems, survey equipment and look at misconfigurations and then would come back and present their findings to the Board. This would help Turnis in prioritizing the needs as to what needs to be done first. There might be some costs in the near future after they present their findings.

Volz moved/Tippett seconded: To approve having the Iowa Counties Information Technologies (ICIT) Tech Team come in and do a full assessment of the sheriff's office IT needs and authorize the chairman to sign the hold harmless agreement and agree to pay the \$4,000 for this service. Tippett, Seeman and Volz voting aye. Motion carried.

Auditor Rippel explained the need to amend the budget hearing that had previously been set for FY 25 amendment #2. There had been some recent needs brought to her attention along with the IT work at the Sheriff's office. She would need additional time to get those implemented into this upcoming amendment along with meeting the newspaper publication requirements.

Tippett moved/Volz seconded: To Amend FY 25 Budget Amendment Hearing date from January 21, 2025 at 9:30 a.m. to February 4, 2025 at 9:30 a.m. Tippett, Seeman and Volz voting aye. Motion carried.

FY 26 Budget conversations continued. Supervisor Tippett proposed sending a letter to the department heads with guidance where their budgets should be. Rippel agreed that would be a good idea. A big factor is most definitely working with the insurance amounts decided last week, and wages. Hopefully that can take place in the upcoming week or two. The individual departments could then get her a more accurate budget by the end of the month so that she can start compiling it as a whole. There are so many unknowns such as the Mental Health Changes that will be taking place, landfill fees and non-departmental costs to factor in as well.

Auditor Rippel informed the Board of some recent resignations to Union Township along with Van Horne Benefitted Fire District. The Board would need to find some replacements in the near future.

Supervisor Seeman reported on his recent Conservation meeting where the County Weed Commissioner also provided an update along with the IRVM committee.

BENTON COUNTY BOARD OF SUPERVISORS RECORD “T-T”

Alyssa Comer and Mary Beth Stevenson, also from ECICOG came to educate the Board on the watershed management authority for the Middle Cedar. The authority has been in effect for 10 years. Benton County was the previous fiscal agent, and Tracy Seeman has served on the Middle Cedar Board. They are currently working on getting more entities signed on along with efforts to get a new coordinator hired. They are requesting \$5,000 from Benton County. IN the group are Franklin, Hardin, Butler, Grundy, Marshall, Tama, Black Hawk, Buchanan and Linn Counties along with smaller towns of Vinton, Traer, and Grundy Center and also the City of Cedar Rapids, Waterloo and Cedar Falls.

Melody Kosobucki with Riverview Center gave a quick overview of the services they provide in Benton County. They work to get people on path to healing and moving forward after being impacted by sexual abuse. They work closely with our Sheriff office and local hospitals. Their FY 25 Budget asking is \$1,000.

Karey Chase, vice president of community impact for the East-Central United Way talked to the Board about the volunteer center in Benton County. They currently have two part-time staff in their office space in Belle Plaine. Their advisory council would like to see them looking into serve smaller communities. Chase explained what services they have provided such as transportation services and errand running, projects of coats, pillows and the tree of sharing and Thanksgiving food packages. Their FY 26 Budget asking is \$20,000.

Rik Handler, representing Pete's Hills Addition and Haley McNulty, representing Southern Exposure Estates came to present a petition of names and to discuss a paving project on 32nd Avenue from HWY 30 to the sub-division. The list of property owners are all willing to partner with Benton County for the cost of getting this done. Engineer Myron Parizek talked about the costs and time process of how soon this could take place. A contractor would have to be hired. The Engineer and Auditor will prepare a petition, contract and waiver to finalize the details of cost for doing this as a special assessment. The time span of how many years to spread this out was also discussed. This will be brought to the board at a later date for official action.

The Benton County Library Association met with the Board on their budget requests. The Association hasn't met with the board for some years and thought this was a great time with two new supervisor members. Kelly Henkle, The Vinton Library Director explained all the services they provide to the member libraries of Belle Plaine, Keystone, Blairstown, Norway, Atkins, Newhall, Shellsburg, Vinton, Van Horne and Garrison. They also provide services to Lutzerne and rural residents of the County. They are asking the same amount as the current year. Henkle also talked about the programs put on in the libraries, and subscriptions, circulation and programming provided at each library.

Sheriff Dave Upah and Deputy Josh Karsten presented needs for an amendment to the current budget. It appears they will be short on spending authority in wage area and vehicles. Currently they are short four people and stressed this isn't for new positions, this was to fill vacancies where they have been short. With that comes the need for the vehicles and full gear to be put into the vehicles including in car camera systems. Auditor Rippel felt that these vehicles could be paid out of Local Option Sales and Service Fund (LOSSF). She has included some of these increased spending authority in the upcoming Budget Amendment notice that recently went to the paper. That budget hearing is set for February 4, 2025 at 9:30 a.m. The 3 most recent vehicle purchases will be used for the new hires, and they are going to seek bids for 3 more that will be used to replace high-mileage vehicles. Further discussion on amounts and also the need to increase the fees for contract rates. They would like to get something in place and sent out to the cities so that these new rates could go into effect July 1. The current rate is \$32.50 and that doesn't even cover the wages.

Robert Spangler, Phil Borleske and of the Benton County Historical Preservation Commission presented their FY 26 Budget request of \$17,135. \$6,000 is for office space rental and the rest goes towards training and projects they are required to do. The office space is to allow for these things and currently they share with the supervisors conference room and they want space of their own. The Supervisors told them they are still brainstorming for space and might know more by July.

FY 26 Budget conversations continued. Supervisor Tippett proposed sending a letter to the department heads with guidance where their budgets should be. Rippel agreed that would be a good idea. A big factor is most definitely working with the insurance amounts decided last week, and wages. Hopefully that can take place in the upcoming week or two. The individual departments could then get her a more accurate budget by the end of the month so that she can start compiling it as a whole. There are so many unknowns such as the Mental Health Changes that will be taking place, landfill fees and non-departmental costs to factor in as well.

Committee reports: Supervisor Tippett reported on attending the newly elected officials school last week at Prairie Meadows in Altoona. He felt it was great information and networking. Supervisor Seeman attended the landfill meeting and the watershed meeting.

Continuation on the FY 26 budget discussion was had. Auditor Rippel inquired on who will be budgeting for the service agreement for maintenance fees on the communication towers. If it will be the county or emergency management, they affect two different levies. Supervisor Seeman will get back on this and get the final yearly amount needed. Supervisor Tippett said he would like to maintain what we have but would like to see an overall decrease in the county budget. Auditor Rippel shared that with changes that Senate File 2442 made, the growth in the county has forced us to reduce levies again for FY26 General Basic and Rural Basic. The tax reform changes could continue for years to come, so we have to take it a year at a time depending on what legislation does.

Tippett moved/Volz seconded: To adjourn at 11:46 a.m. Tippett, Seeman and Volz voting aye. Motion carried.

This morning's meeting consisted of more budget work.

Mona Onken presented the FY26 Mental Health and Access Hub budget, which is very minimal and uncertain. Onken also explained the need for a FY 25 Amendment due to the sunset date of the region's mental health on June 30, 2025. There has to be enough spending authority and funding to cover those expenses that trickle into FY 26. With so many current unknowns, the board tossed out the possibility of those existing contracts that can be honored for 6 months to one year after June 30. The Board agreed to put the spending authority in for a full time position into the Access Hub's Budget and wait and see what the ASO decides. If they don't come through with continued funding, then the Board has the choice of not pursuing it or further fund it through the county's general fund.

Onken reported that Mae Hingtgen, Director of the MHDS of the East Central Region would be at a future board meeting to discuss more at length as they learn further about the transition plan.

Sheriff Upah reported that notice has been given to those cities that contract for law enforcement, that the rate increased. So far, he felt everyone has been receptive of it. Upah also reported the front steps that are broken in front of the law enforcement center and will need to be looked at and fixed for safety concerns.

Auditor Rippel reported that there has been numerous counties recently adjusting their budgets to pay one or more of their sheriff deputies salary out of the Rural Services fund instead of General Basic. The Board agreed to have the Auditor adjust things using the amounts of 2 deputies salary and provide them reports before they make a final decision on this. Rippel would get them some revised reports in regards.

Courtney Long, Veterans Affairs Director discussed care of graves and how Benton County pays \$5 per grave each year. Long also provided a list of veterans buried in Benton County along with invoices paid. Code section 35B.17 has been repealed, so nothing in the law that would require to continue said payments. The Board agreed to leave it the same. Long also answered some questions in regards to the Veterans Affairs and General Assistance Budget. The board suggested increasing the care of graves from the \$1500 asking to \$3000 as it was in the past years. Supervisor Seeman also suggested creating a possible form to keep log of the care provided to the graves.

Engineer Myron Parizek came to discuss some details for the 32nd Ave. Sealcoat project. He is planning to put this expense in his FY26 Budget. The last sealcoat project the county did had a 3% interest rate. With 41 participants, this would be one of the largest for this type of project the county has done. Typically the overall cost is split 50/50 between the county and property owners. They also discussed how many years to spread this out, Iowa Code says it can be spread for 10 years, but previous projects have been only five.

Volz moved/Tippett seconded: To set the interest rate at 3% for a 7 year period for the seal coating project on 32nd Ave. Seeman, Tippett and Volz voting aye. Motion carried.

Volz moved/Tippett seconded: To approve Resolution #25-14, Amending Resolution #25-13, Elected Official's Salaries for FY 26. Before Voting on the motion. Sheriff Upah wanted to show his work and listed out details of the departments work since Jan 1, 2025 and pointing out areas they have already provided savings to the county including increasing the revenue coming in from law contracts with the cities and dispatching services. Also mentioned other things and pointing out , they are trying to do what's best for everybody. Tippett told him that his work was appreciated. Other comments were heard from Treasurer, Melinda Schoettmer along with her deputy Treasurer, Joy Wieditz also spoke up. Treasurer's office also is an office that generates money in addition to taxes from the fees collected from vehicle registrations from citizens outside of the county. Wieditz stressed how the boards actions were not fair last week giving examples and comparing how many years of employment some employees had vs others, along with additional duties and not being compensated, she didn't feel their action was justified. Recorder Lexa Speidel re-iterated the “show your work piece” and pointing out that the amount of an increase to her department would be \$6,720 and a compiled amount from her department along with Treasurer and Sheriff, combined was under the amount of increase granted to the Attorney's office. Speidel was for saving the county money, but if \$0 was going to be given, then that should have been same across the board. After no further discussion the Board voted on the motion as follows: Volz, Seeman and Tippet voting aye. Motion carried.

The Board discussed the quotes received for updating the Benton County, Iowa Multi-Jurisdictional Hazard Mitigation Plan. Dean Vrba, Emergency Management Director shared some input on what he found doing some background checking on a few. Although the one was cheaper than others, he didn't hear positive things. He was leaning towards Two Rivers, even though they are based out of Texas, they have done many in Iowa. The Board wanted to have more time to read through all the proposals and act on at a later date.

Volz moved/Tippett seconded: To table action on awarding the quote for the update for Benton County, Iowa Multi-jurisdictional Hazard Mitigation Plan until April 8, 2025 at 9:45 a.m. Tippett, Seeman and Volz voting aye. Motion carried.

Members of the public are invited to join in during open session or watch the livestream at <https://www.youtube.com/bentoncountyiowa>. *Full Resolutions will be available in the Auditor's office and at: www.bentoncountyiowa.gov*

Tippett moved/Volz seconded: To approve agenda. All members voting aye. Motion carried.

Chairman Seeman opened up the public hearing for the FY 26 Proposed Tax Levy. Seeman asked Auditor Rippel to start out by helping explain the recent notice that went out to taxpayers. Rippel explained the differences between assessed and taxable valuation, and how the state applied rollbacks effect different classifications of values. The amount of valuation growth in the county affects the general basic and rural basic levies. The legislature has forced the county to reduce both of these levies due to the growth in the county wide valuations, which was over the 2% allowed amount. The County is always working in three calendar years at once. Current tax collection is based on the 2023 Values. FY 26 Budget is based off of the 2024 valuations. The Assessor is now also sending out the 2025 Assessments which will be utilized for the FY 27 Budget. These are assessment increases, not tax dollar increases. We realize this is all confusing, and this is one of those unfunded mandates passed down to the county level to do this mailing so close to the Assessment notices and it can be confusing. The total levy the county collects tax dollars for is not only the county's dollars, but various other levying entities. The dollars are disbursed to the cities, schools, fire districts, townships, Ag Extension, E911, EMA and Assessor. All of these entities make up the consolidated tax levy's that are applied to individual tax statements based on their taxing districts.

A room full of concerned taxpayers attended the meeting to express concerns over the impact of the proposed tax levy's. Some key points raised included:

The increased financial burdens put on residents. Requests for justification of budget increases, which led to salary discussion.

Suggestions for cost-cutting measures instead of raising taxes along with questions raised about how the funds would be allocated and whether efficiencies could be found.

BENTON COUNTY BOARD OF SUPERVISORS RECORD “T-T”

The Board members addressed some of these concerns by explaining funding priorities and statutory obligations and any potential adjustments that could be made. The citizens also asked that the Board share more information as to where the budgeted dollars are going along with explaining where they would be making cuts and improvements to be cost saving to taxpayers. Auditor Rippel explained how the required publication sums everything into Service Areas for expenditures and Revenues. The full 15 page budget will get posted on the website once we are ready to propose it and set the public hearing date. This will break it down more by those service areas with more detailed explanation and by fund. In conclusion to the public hearing, the consensus is for the future to hold these tax/budget hearings in the evening when more people are able to attend. There was also the request to have all county officials present at these hearings to answer questions that pertain to their department. After no further discussion. Chairman Seeman closed the public hearing. No action was needed at this time.

The comparisons Erickson provided was nice to look through, but also doesn't say how long that person has been in the position. Volz also noted that reducing the budget and operating more efficiently was appreciated and he would expect out of all our departments do the same and save money.

Erickson asked if they wouldn't be using the comparable information for salaries in the future. Supervisor Tippett explained that comparables are used for determining the elected officials salaries. Supervisors also pointed out this is Erickson's first year in the job. Supervisor Volz also appreciating the reduction in budget and operating more efficiently and that he would expect out of all our departments to do the same and save money. No action was taken.

County Attorney Ray Lough talked with the Board about the mental health advocate and public health. Lough introduced Bethan Wheaton, who has been the county's advocate for several years. With the mental health region being non-existing after July 1st, Lough said by statute the counties are still required to have an advocate. He explained what the advocate does and how it is important to have these people to follow up on services. Lough would like to find her a place in the county instead of working out of her home, so was talking to Grace Schmidt to see about placing her under the Public Health Department. Lough would be meeting with the County's Public Health Board on this next week. Mental health is a big issue not only in our county, but every county.

Lough also discussed the need for a county-wide training coordinator and would like to assign that duty to his Assistant Attorney. Alisha Stach-Lorang has an emphasis on law enforcement and could be a benefit. Lough mentioned training in areas such as being in a courtroom in a contested trial, help them prepare to be ready. Along with other things such as search warrants or the mandatory arrest requirements. Lough added he would like to fund the additional \$5,000 for salary and \$2,500 for supplies and things needed for the trainings for the next 2 years to come out of the Attorney's collection incentive fund.

The Board opened the public hearing for the FY 25 Budget Amendment #3. Auditor Rippel explained the areas that needed to be amended. Like Lough mentioned earlier, the dissolving of the Mental Health Region, there was funding for the last quarter for employees retention pay and indirect costs. We want to be sure we get all that paid out and reimbursed before it all ends July 1st. The other \$172,100 amount was need was to follow up with the Sheriff's new hires, added spending for their withholding amounts, the need for equipment for the new vehicles purchased along with some body cameras. The last area between non-program and capital projects for \$600,000 was to fix an error from the last amendment. Spending authority was noted in the wrong service area so that needed to be tweaked. The Board was presented a prepared copy of the proposed FY 26 Budget. Auditor Rippel has all the compiled revenues and expenses put together along with using the proposed maximum levy's. The Board had time to look it over and ask questions.

Rippel explained they have about another week at the most to make some final adjustments before the budget notice gets scheduled with the newspapers. After that, they can't increase any spending authority, but can reduce spending authority, along with reducing levy's if they choose so. They agreed to have another work session after the upcoming April 8th normal meeting.

BENTON COUNTY BOARD OF SUPERVISORS RECORD "T-T"

April 1, 2025

A joint meeting between the Board of Supervisors and the EMS Advisory Council met on April 1, 2025 at 6:08 p.m. at the EOC at the Sheriff's Office. Supervisor Seeman, Tippett and Volz were all three in attendance.

The Emergency Medical Services Advisory Council has been meeting monthly over the past year to focus on ensuring the EMS tax dollars are being utilized properly and distributed equitably among the service providers.

Assistant County Attorney Derek Marsh was invited to join and provide some legal background and explained how establishing some procedures to help on being more compliant. This is still a new service state wide and more and more counties are trying to get it passed. Marsh also mentioned how things could change yearly on how this is supposed to operate. Most recently learning that Salaries and wages may now be included in the approved uses. Marsh has been working with Auditor Rippel to help define a list of approved uses along with reporting and reimbursement procedures along with the possibility of creating some 28E agreements with the outside agencies for mutual aid.

Debate was had how to fairly distribute the revenue to EMS agencies along with including those out of the county services who assist in responding to calls within Benton County. Considering factors were: population served, call volumes and geographical coverage. Identifying the underserved areas and determining how funding could help improve response times and coverage was a lengthy discussion. The calls per service amount of \$300 was brought up again after previous meetings. This might be too big of an amount referring to what a normal call gets paid after the billing process, it is around \$225. Ben Darling, representing Blairstown Ambulance Service explained how the transports are legally able to bill for services. Some calls they donate time and supplies and don't get reimbursement. The clock starts once that ambulance starts transporting the patient. This was an eye opener to the non EMS providers present. Anna DeMuth, North Benton Ambulance Director invited the Supervisors to take the time and go around and meet with some of the services one on one and ask questions along with listening to the concerns and here how they all operate.

Anna Demuth shared a handout for homework for all entities to take the time and fill out. Demuth would like the history over the past few years on statistics for calls and assists. This could help with the determination if they decide to pay out on a per call basis in the future. The council will skip a month and meet again in June. For the time being, proceed as we have been by submitting claims to the Auditor's office with the required forms and invoices.

Mae Hintgen, Chief Executive Officer of the MHDS of the East Central Region provided an update to the Board regarding the upcoming transitional plan that will go into effect after July 1, 2025. A service from Des Moines was chosen to cover the entire state for mental health and substance abuse. They will no longer be dividing that into regions as we currently are, but will now be the re-organized districts created. The priority will still be getting people the services they need and to make them accessible. They will be committed to be a good transitional partner and get information out during this time. Further discussion about the positions that will no longer be funded by the region was also had. This has been an emotional time for all involved.

Engineer Myron Parizek presented his proposed 2025 Dust Control Prices. He bases this on material and labor costs as best as possible. Last year it was \$1500 for the first 400 feet and he is asking for that to increase to \$1550. Parizek reported last year there were 140 different sites who participated in the dust control, but also mentioned that residents can also choose to hire outside contractors for their applications. Contractors will do it for profit while the county does it per cost. Benton County isn't required to offer this. The Board agreed as long as the equipment works for this to continue, although would revisit it if things start needing replaced. In years past, County also requested some roads that was recommended to seal coat and what we provide or continue to do so. We don't charge for administration costs such as permits.

Seeman moved/Volz seconded: To set the cost for the 2025 MC-70 Dust Control to be \$1550.00 for the first 400 feet, with an additional \$260 per 100 feet or \$2.66 a foot with a minimum of 50 foot increments and can apply between April 14, 2025 through May 2, 2025. Volz moved/Tippett seconded: To approve the Auditor's Quarterly Report ending March 31, 2025. Tippett, Seeman and Volz voting aye. Motion carried.

More discussion on the tabled action from March 25, 2025 in regards to the quotes received for updating the Benton County, Iowa Multi-Jurisdiction Hazard Mitigation Plan was had.

Quotes received were as follows:

Blue Umbrella, LLC-\$36,500

MCM Consulting Group, Inc.-\$87,510

Two Rivers Emergency Management, LLC-\$24,000

Atchison Consulting Service (ACS)-\$36,160 Approach A or Approach B for \$27,200

BENTON COUNTY BOARD OF SUPERVISORS RECORD “T-T”

Emergency Planning and Consulting, LLC-\$16,642

Dean Vrba, Emergency Management Coordinator had recommended the Board go with Two Rivers Emergency Management. Although it was not the lowest quote, he has heard all good things about them when checking their references. Supervisor Seeman was leaning towards the lowest bid, and realizing they may lean on the EMA Director, Auditor and Assessor for obtaining information and data needed to compile their update.

After today's meeting they are going to go over everything with all the department heads. Rippel also spoke on the finished scanning project that was done by her office along with the Recorder of the Real Estate Records and Supervisor Minutes from her office along with various documents from the Recorder's. The Board had some handouts for each department in attendance. The Auditor did some calculations for total budget asking per department, minus the wages/withholdings and benefits, and compared a 2.5 % reduction and 5% of what was left. They heard some comments in regards to this being very tough for some vs others. Supervisor Seeman mentioned when looking at the overall budget predicting almost 6 million in deficit when comparing worst case scenario of all the expenses vs estimated revenues. Granted if grants aren't approved, that spending authority would cease. Supervisor Volz also re-iterated on the reductions and asking that at the end of this fiscal year for everyone to be considerate and not going on spending sprees before the fiscal year ends. Auditor Rippel explained the loss of revenues for various things that the state is no longer funding, and with the tax reform bill, the upcoming years are only going to get tougher. The departments are asked to make their changes within the week before the Budget Hearing on April 22, 2025 at 9:30 a.m. Continued discussions on where other areas in the budget could be reduced, while others is hard to plan for. The Board can reduce the spending before the budget is adopted at that hearing and appreciated everyone's effort to make this happen.

Former county Auditor, Jill Marlow addressed the board on issues that were brought up to them at their maximum levy hearing that was held in March. She stressed that the budget is obviously out of control. She read a document from the Tax Foundation that said Benton County was in the top four fastest growing property tax increased in the state between 2018 and 2024. She also stressed that people on fixed incomes are not going to be able to afford property taxes. Marlow also asked if the collections department is self-sustaining, or if it is being subsidized by the taxpayers. She asked for records from the county attorney to reflect this. Marlow asked the Board to refigure the budget, look at the re-estimates better and to lower levies and reduce the appropriations. County Auditor Rippel agreed that all departments could do better at re-estimating their ending FY 25 Budget Amounts and could ask them to do so and do more refiguring before next week. Other conversation on areas where to try and cut, or how county reduction in funding could affect secondary roads state funding as well.

No other public comments were made regarding the budget.

Opioid Committee members, Hayley Rippel and Shelby Chekal provided an update on recent activity from their recent meeting. There is a great need for transportation when someone is in a mental health crisis or drug addiction programs and recently released from jail. They sometimes have nobody to help them get transportation to and from appointments. Or when a person is released from the jail, they have no vehicle or funds to get them somewhere. This is an approved use, not from tax dollars, but funding the county has received through the opioid litigation. Chekal would like a way to secure transportation for these individuals when there are no other options available. They would provide receipts for the card activity to the Auditor's office.

Tippett moved/Volz seconded: To authorize a county credit card under the Opioid Task Force with a credit limit of \$1,000 to be overseen by the Jail administration and Shelby Chekal, Sheriff Liaison. Tippett, Seeman and Volz voting aye. Motion carried.

Eric Franzenburg met with the board to discuss how he would like to start a shrimp farm. He currently has a diversified farm operation, growing different crops like fruits, vegetables, flowers and herbs. The past five years they have started a agri-tourism project called the "Sunflower Experience." This farm is located off HWY 30. Regarding the County's land use ordinance and what is defined as agricultural activity was discussed in depth. Franzenburg said there is a concern that shrimp is not considered an animal of agricultural activity. He presented information about this and that it is a viable operation being developed in the state. People will be able to just eat shrimp that is produced locally instead of coming from another state or China. Franzenburg also emphasized tourism, and how he plans tours of the facility to educate people on why to buy shrimp from a farm.

Supervisor Seeman asked if they would be able to use Poweshiek water, and they can but would need to add salt to make the environment ready. It takes about 3 months before they would be ready to sell.

Supervisor Volz asked if there would be any bi-product to dispose of. There would be about 10 gallons of water a day, but no manure management plan needed in this type of operation. There is already an existing driveway.

Barb Fetzer, Benton County Land Use office explained that if Franzenburg wanted to split this area off like he has expressed, if it is less than 21 acres, it would not meet the definition of a farm. She agreed that this is an ag use, but stressed the definition of farm under the ordinance.

Steven Beck, Belle Plaine City Manager, spoke how Franzenburg's are an asset to the community. Beck inquired about getting a new 911 address for this area and wants to be sure there is a pathway for this going forward.
There was no action taken.

The time of 9:15 a.m. having arrived, and this being the time and date set for a land use hearing for Destructible Ink of the SE 1/4 of the NE 1/4 Section 12-86-11. The owner of the land in is Farmtastic 3,LLC. which consists of Mark Kotouc, Wade Hennings and Dustin Schirm. There were about 50 members of the public present, along with Destructible Ink representatives and Mark Kotouc. Matt Even presented the technical information with the Benton County Agricultural Land Use Preservation Ordinance. Even stated the applicants would like to change the use of 28 acres to allow for a wind turbine blade recycling and storage facility. This site is located in Cedar Township, approximately 2 miles northeast of Mt. Auburn. It was previously a chicken/egg farm and is currently being used as a storage facility. This ground has a CSR of 64 and not considered high quality farm ground. This property is surrounded by row crops on all sides with dwellings located immediately northeast and southeast of the property. There is an existing driveway and was reported by secondary roads that it conforms to county policies. The previous septic system that was for the former egg farm was properly abandoned in 2017. If any existing or new plumbing fixtures are utilized, a private sewage disposal system will need to be installed. There are two private water wells in place currently. Legal notices were sent out to adjacent property owners published in the papers. Benton County Environmental Health and Land Use Department has received several inquiries regarding potential environmental hazards and permitting, so they contacted the DNR. If blades will be cut up in an outdoor space, the area must be covered by an NPDES General Permit 1 to allow the discharge of stormwater from this area. The grinding process is typically covered by an air quality construction permit. Primary potential risks is from airborne particles, mainly composed of fiberglass dust, carbon fiber dust and epoxy resin particles. Other issues include microplastic pollution and potential fire hazards.

Even explained the major goal the people of Benton County hoped to achieve when creating the land use plan was to protect agricultural land in the county. Other goals included providing for the orderly growth of urban, industrial and agricultural lands so that they develop in harmony with each other and to encourage the development of the commercial and industrial businesses in defined areas of the county. Land use decisions based solely on the economic system can easily lead to incompatible uses. According to the compatibility of the land uses table within this plan, heavy industrial is incompatible with agricultural and residential rural areas. This adversely affects a third party; be it an individual, or society as a whole. These effects often lead to economic hardship, or most often a decline in property value. This proposal is not consistent with the preservation of agricultural land and orderly development. There are serious concerns about this proposal's effects. These conditions for approval have not been met, and it is recommended by the Environmental Health and Land Use staff to deny for this reason.

At this time, Jared Sanford along with Cody Earle, representatives from Destructible Ink were able to present by zoom and speak in person about the plans for their project. They said their company is focused on end of life solutions for renewable energy, specifically turbine blades. They are needing short term storage in a remote area. All of the shredding would occur inside with plenty of airflow.

BENTON COUNTY BOARD OF SUPERVISORS RECORD “T-T”

They said it wouldn't affect the County Landfill. Earle explained that there would be approximately 8 trucks a day to haul the blades to this location. It would start in July and go through September. This brought up the conversation of why the need for short-term vs long-term storage. The board also opened up for public comments and questions. There were numerous concerns from nearby neighbors and farmers about the dust mitigation and the existing processing operations and commissioning for disposals of these blades. Most voiced environmental concerns and safety hazards along with the impact of the weight and added truck traffic on the county roads. They were asked how they could guarantee the dust particles wouldn't contaminate nearby grain bins and water streams that lead into the river. After a lengthy two hour discussion it was suggested by legal counsel to finish up the public comments.

Tippett moved/Volz seconded to close the public hearing at 11:09 a.m. Tippett, Seeman and Volz voting aye. Motion carried.

Tippett moved: To deny the request for the application for land use change as the proposed new non-agricultural use is inconsistent with the purpose of Ordinance 24. The proposed use is an incompatible use that could materially alter the stability of the overall land use pattern in the area. The proposed use would have no doubt impact adjacent property owners, whether that impact be in property values, farming operations, or overall enjoyment of the land. I do believe that these gentlemen will be successful in marketing their property, but I don't believe that this project is a good project for Benton County. Volz adding, that based on what he's heard today, he didn't believe this would be the way to do it, and he seconded the motion. Tippett and Volz voting aye, Seeman voting nay, because he wanted more information. Motion carried.

Volz moved/Tippett seconded: To adjourn meeting at 11:15 a.m. Tippett, Seeman and Volz voting aye. Motion carried.

This was tabled a few weeks ago and was placed back on to re-visit after allowing the county attorney's office to look over the terms of the 28E agreement. Assistant Attorney, Derek Marsh explained some of the terms I the agreement brought some concerns. At this time they are recommending not to sign it, they wanted to have some language added to the agreement so it wasn't so vague. Discussion continued in regards to what entity would be the employer for Wagner. With all the changes being made after dissolving the mental health regions in the state, there are a lot of questions for everyone. If Benton County would choose to be the employer of record, the funding would be estimated a month up front at a time. Marsh asked to obtain contact information for the Region's attorney and discuss some of the language changes we would like to see.

One of those locations is this intersection and it was recommended to add rumble strips. One of those strips is very close to a resident, who has expressed concern over the noise. They currently have destination lighting on both sides, and are waiting on flashing red beacons for the stop signs facing north and south. Parizek was looking for guidance on changes they wanted to make, stressing that from an engineering standpoint, the rumble strips were fulfilling their purpose. This intersection has three panels, and they all agreed to try and minimize the noise from the middle panel that is close to the residence.

Tippett moved/Volz seconded: To approve the revised minutes from June 10, 2025 and June 17, 2025. Supervisor Tippett read his clarified motion for denying the land use change on June 10 as follows: To deny the request for the application for the land use change as the proposed new non-agricultural use is inconsistent with the purpose of Ordinance 24. The proposed use is an incompatible use that could materially alter the stability of the overall land use pattern in the area. The proposed use would have no doubt impact adjacent property owners, whether that impact be in property values, farming operations, or overall enjoyment of the land. I do believe that these gentlemen will be successful in marketing their property, but I don't believe that this project is a good project for Benton County. Volz adding, that based on what he's heard today, he didn't believe this would be the way to do it, and he seconded the motion Tippett, Seeman and Volz voting aye. Motion carried to approve both sets of minutes.

Volz moved/Tippett seconded: To approve payroll checks numbered 143794 through 143805, ACH Deposits 61539 through 61705, vendor checks 254119 through 254125, claims 254126 through 254298. Tippett, Seeman and Volz voting aye. Motion carried.

Volz moved/Tippett seconded: To approve paying the claim to 2NSystems, LLC in the amount of \$48,868.52 using ARPA funds. Tippett, Seeman and Volz voting aye. Motion carried.

Allison Hicks, Historic Preservation reported on the CLG Grant. Last week they received a stop order from the state because federal funding did not come through. She said the options are to put everything on hold or terminate their contract with the state. She added

registrations are already coming in for the window restoration workshop. The contract was for \$1,230. The board was in favor terminating the contract, but wasn't on as an action item so will wait until next week.

The Board took up the tabled action item regarding requested verbiage change to the MOU for the Mental Health Regional changes. The Regional Board met Thursday of this week and looked over Benton County's proposed changes. Julie Davidson explained that the regional board took out the housing part and Assistant County Attorney, Derek Marsh took out the duties in Benton County verbiage. Marsh also stated the attorney's office stands with their previous opinion because of liability. Volz stated he reached out to the county's insurance company, Heartland, and they had not seen anything like this before. Volz' main concern was liability, especially if there was a work comp claim. Tippett stated liability insurance for DAB was approved at the regional meeting. Volz stated there was no incentive for Benton County and questioned why one of the other counties the employee, Sarah Wagner, would be covering didn't take on her pay. Julie Davidson stated it takes time for the region to get established as an IPERS covered employer and get the health insurances to cover employees. Davidson also stated there were other counties doing this to get by and the only one that hadn't was Jones County. The Region is asking for the MOU to cover a year but hoping they can get things done sooner. Tippett stated he wants to see the wages and benefits stay the same, but sees why the county would be concerned.

Public comment was made by Doug Cook, that as a citizen and tax payer of Benton County he was not in favor of this. as there was no incentive and could become a liability.

Tippett moved/Volz seconded: To approve Contract between Benton County and I& S Group Inc. for county inspection of MidAmerican Energy Company pipeline known as the ICCR618 Natural Gas Pipeline Project. Tippett, Seeman and Volz voting aye. Motion carried.

Matt Betterton met with the board to follow up with concerns he brought to their attention in January regarding the assessment of his chiropractic clinic. Betterton stated that he reached out to Andreesen prior to the letter he sent to the board and was appreciative for the 33% reduction adjustment made for his 2023 taxes. Betterton agreed with the fair market value on his property, but was referring to the improper classification/possible clerical error since 2012. Assistant County Attorney Derek Marsh explained the review process and time limits involved and how the authority for adjustments would be addressed with the Board of Review not the Board of Supervisors. The Board of Review can only look at properties that have been petitioned within the deadline to do so. Betterton said he was told by Andreesen there was nothing more he could do. Assessor Larry Andreesen explained how buildings are graded and the discussed the differences between dental/medical and office/businesses and how there is some grey area. The Benton County Assessor contracts with Vanguard Appraisals who serves the State of Iowa and creates the manuals they follow. Supervisor Tippett stated he has met with both Andreesen and Betterton at separate times. It was suggested that Betterton reach out to the Iowa Department of Revenue and no action was taken.

Supervisors reported on recent committee meetings they attended. Tippett had a Board of Health meeting, reported that they have been busy with various activities and also have a few interns helping out. They will be coming to an upcoming supervisors meeting with an update on some of the short funding on a grant. Volz attended Heartland Insurance meeting and shared some handouts he received, one table showing Benton County coming in at the top for claims with vehicle damage mainly from deer and some workman's comp claims. Heartland will be hosting their fall seminar on September 11. Volz also added that there will be mock OSHA audits this fall also and some required training due to House File 706. Seeman had conservation Board meeting, ECIDOG transit and visited the new Frontier expansion celebration in Belle Plaine.

The time of 10:00 a.m. having arrived, and this being the time and date for the first consideration of Ordinance #80, Animal Protection and Control. The chair declared the first consideration open for public comment. Auditor Rippel stated that this would be repealing Ordinance #37, since Ordinance #80, is titled differently and not just amending the prior animal one. A lengthy discussion was had regarding the proposed ordinance, comments and questions were allowed by the public along with the Supervisors. Issues such as what is considered a dangerous animal, dog bites and when and how quarantined is enforced and at who's discretion. This led to the talk about possible need for an animal control officer. Supervisor Tippett referred to Chapter 351 in the code regarding vaccination requirements. Supervisor Seeman questioned if there would need to be permits for those people in the county who raise foxes and minks or when variances be granted. Sheriff Upah and First Deputy Josh Karsten were also present to provide input and also answer questions about how these calls are reported and tracked. The Sheriff employees are all doing their due diligence with these animal cases, no different than if it were humans. The "calls for service" all have a logged history from every call that comes in and dispatchers enter it into the system. It was agreed that this is just a start for making changes, and it might need to be slowed down and done correctly to allow for more input and time to research additional concerns. The 2nd reading is being held next week, so the Attorney's office will make some changes and make the new draft available. It was agreed that the protection of people is the number one goal and priority of the ordinance, although their needs to be responsibility stressed to be on the pet owners as well.

Tippett moved/Volz seconded: To acknowledge the first consideration of Ordinance #80, Animal Protection and Control, repealing Ordinance #37, Vicious Animals in Benton County, Iowa and to authorize the County Attorney's office to do some research for things in question along with changing some verbiage. The time of 12:30 p.m. and this being the time and date set for a public hearing for pursuant to Iowa Code 331.361(2), Chairman Seeman opened the meeting up for public comments.

Mike and John Elwick, trustees for Janet Elwick Estate and who farms the property next to the property for sale known as the old dog pound. Elwick's have stated that this is the 3rd time they have showed interest in the property. They are happy to see it is not suitable for conservation and glad its turned over to the Supervisors as there was no intent at all to honor any previous owners wishes for the property to be a wildlife refuge area. It was originally a school in Taylor Township. Mike Elwick more recently shared a letter that was distributed to the Board back in September and has visited with the Conservation Board, and the County Attorney's office in regards to their proposal, stemming back from 2015 when they offered an easement swap of the same amount of land, where no money would be exchanged. There is a waterline that goes across their field with no easement on record and that it needs to be addressed. October 7, says there was a waterline easement that should have been recorded back in 2007.

Willing to talk more, but wants to the county to keep the funds and not to go to the Conservation Board.

Derek Marsh, Assistant County Attorney responded that you can't swap easements for land rights. Easements are use rights per Iowa Code. Marsh said this has not been used for wildlife refuge probably since 1952. The county had took quiet title action to the property and Marsh provided copies of the judge's paperwork and other documents to the Board. Marsh also mentioned the Marketable Record Title Act (MRTA) a piece of legislation adopted by states in the US to simplify and facilitate real property transactions. It was designed to eliminate older recorded real property interests that may interfere with future development or create potential liability for title insurance. Certain laws were enacted for property owners to protect their covenants and/or restrictions on a recurring basis through a recording requirement. When those requirements are not met, then the covenant and/or restriction could be non-binding on the land. Marsh also presented a certified copy of the land survey of the property along with a resolution from the City of Vinton regarding the Easement. This ultimately says the rights would continue to go from person to person. Furthermore if its all about the water, the City has Ordinances and this property is located within the city limits and Conservation has been paying utility bills. Continued discussion on the timelines in regards to the ownership and different uses of this property was had.

The Board declared this public hearing closed at 1:24 p.m.

This dwelling will require a new septic system which will be permitted by the department and they plan to utilize the current well. The surrounding area generally consists of agricultural uses with some scattered residences. Proper notices were sent out and published in the official newspapers with no comments in regards. Hearing no other further comments, the public hearing was closed.

Supervisor Tippett presented the Iowa State Association of Counties amicus curiae brief request that they all received by email. He explained how it is related to the eminent domain and other issues that will come up, such as solar that utilities are working with. This can affect county zoning ordinances according to Derek Marsh. This deals with Supreme Court action in Shelby and Story County regarding pipelines. They are asking \$500 from each county, the board chose to not take action at this time.

Alyssa Comer and Mary Beth Stevenson East Central Iowa Council of Government (ECICOG) met with the Board on their FY 27 Middle Cedar WMA Budget. They are asking for a minimum of \$5,000, or \$8,360 which is based on land and population. Last year the county gave \$5,000. The FY25 Annual report was handed out along with their project overview and how they want to grow resilience in the Middle Cedar Watershed. Paola Trujillo with Black Hawk Soil and Water Conservation also was there to talk about current program led by Black Hawk Soil and Water Conservation District to support small-scale and urban farmers with gardening. They offer learning sessions and support that will help small scale growers and gardeners in the area.

Paige Everly and Coral Smart with Riverview Center presented their FY 27 Budget Request of \$1,500 which is \$500 more than last year's allocation. They gave an overview of the services they provide to county residents and how they help out local law enforcement, hospitals and schools for sexual abuse survivors. Auditor Rippel reported that she has provided budget worksheets to all the departments and is recommending that the Board should give some guidance with Department heads as they are starting to work on getting budgets submitted efficiently. Chairman Seeman said he was leaning on zero raises as was recommended by the Benton County Compensation Board. Supervisor Volz said he was on board with that also. Supervisor Tippett said that the county has big expenses coming up as Volz mentioned earlier about our insurance premiums. Volz added there are so many things we can't control, so for the things that we can, we have to look at that tight. Supervisor Seeman would like the budget to stay the same until we know the growth and money coming in. The Supervisors asked Assistant attorney Derek Marsh to draft letters to the two unions asking them to not honor their contract with pay raises this year, that in years past we've bent over backwards and gave them more than their contract.

Volz moved/Tippett seconded: To adjourn meeting at 10:25 a.m. Volz, Seeman and Tippett voting aye. Motion carried.

Hayley Rippel, Benton County Auditor reported on the unemployment pool through Iowa State Association of Counties (ISAC) is dissolving. The county received half of their reserve fund back from ISAC and needs to set up a proprietary fund to deposit this into. There was also discussion on the percentage to budget for, we have historically budgeted .3% although Iowa Workforce Development is recommending .1%. Instead of the county paying ISAC quarterly, we will now pay those claims directly to Iowa Workforce Development. The Board can discuss further the percentage they are comfortable with. This is another thing that needs to be decided so that the other department heads can budget accordingly.

BENTON COUNTY BOARD OF SUPERVISORS RECORD "T-T"

Tippett moved/Volz seconded: To acknowledge Deb Cummings retirement from Secondary Roads Department effective January 30, 2026. Tippett, Seeman and Volz voting aye. Motion carried.

Auditor Rippel wanted to discuss the upcoming payroll date on January 1, 2026 and how that would affect direct deposit with it being on a holiday. The earnings are all in December, although if we changed the pay date to December 31, 2025 it would also affect IPERS/withholding's reports and her department recommended leaving the pay date as originally scheduled for January 1, 2026. The Board agreed.

Anna Demuth, North Benton Ambulance wanted to provide an update regarding a prior approved ambulance purchase from the Board for up to \$220,000. Demuth explained that half of the payment would be in January of 2026 and the other half in January of 2027 with 0% interest. She would ask that they revise that original asking and have it be \$80,000 to go towards administrative costs and \$120,000 towards the vehicle. Demuth also provided a report representing the Benton County EMS (Emergency Medical Services). The report had statistics from the EMS trust fund usage from FY 24 -FY26 and also for ongoing collaborative EMS Efforts going forward in FY 27. There are 13 services in Benton County. She dissected the 2024 call data of the transporting services. North Benton Ambulance carries the largest call volume, with Belle Plaine and Blairstown second. Atkins, Urbana and Norway are the busiest first responder services, with Van Horne and Shellsburg closely following. The EMS Advisory Council plans to have a meeting January 6, 2026. The EMS Association and Services Directors are working on clinical guidelines and carried medications by first responders to align with a county-wide Medical Director, Dr. Dan Kinker, DO. Currently 9 of the 13 services affiliated or will become affiliated. The ongoing efforts to standardize medical equipment and supplies while working together to provide training and education opportunities will continue to strengthen the EMS System in Benton County.

Bruce Volz attended the Iowa Workforce Development meeting last week which brought up a request he had. He would like to see how much the county has paid in 2025 to employees who were out of work on workmen's comp injury, and what was paid over and above compensation from the insurance company. He will share that information when he receives it. Volz thought it was something to look at for budgeting purposes or changing the policy on when an employee can report back to work also.

Tracy Seeman reported on the landfill meeting, last week during all that wind they were forced to shut down and not accept any loads.

Volz moved/Tippett seconded: To adjourn meeting at 9:56 a.m. Tippett, Seeman and Volz voting aye. Motion carried.
